

Baltic Control[®]
Caring about quality

PSQCA – SOLAR PANELS Pakistan

Pakistan Standards and Quality Control Authority (PSQCA) has appointed Baltic Control[®] for verification of the conformity of solar panels and inverters before shipment to Pakistan.

Objectives

1. Consumer and environment protection
2. Conformity assurance
3. Faster release of goods at Customs offices at the Pakistani borders and the entry points

Process

The exporter lodges a request for certificate of inspection with the Baltic Control[®] offices according to the contact details stated below. This request should include:

- Filled RFC form
- Proforma invoice / final invoice / packing list / name and contact of the importer and exporter
- Test reports issued by ISO 17025 accredited laboratory in the country of origin or exporting country
- Certificate of Conformance (CoC) – issued by ISO 17065 accredited certification body in the country of origin or exporting country
- Information related to the location of the goods and date for performance of physical inspection of the goods before shipment.

Baltic Control[®] Team Mission

1. Baltic Control[®] reviews the information and the documents provided
2. Contact the customer / exporter to coordinate physical inspection
3. Baltic Control[®] verifies consistency and accuracy of data collected during the verification process. Upon satisfactory result and receipt of the final invoice and a transport document, a Certificate of Inspection is prepared, which is accepted by customs employees at the Pakistan border and the entry points.

Documentation

In order to apply for inspection filled RFC should be provided – template attached. All necessary information regarding export of solar panels to Pakistan is available in file – Implementation of Quality Standards on Import of Solar PV Equipment – S.R.O. 604:

- S.R.O. 604
- RFC form

Further information can be obtained through our Head Office in Denmark or office in Pakistan.
